

I would like to respectfully request that you do not remove FM translator service signals (REPLACED BY LPFM) which may eliminate one of the best radio stations "K-LOVE" which I hear DAILY (in San Antonio) and pledge my support to each month. Please do not take this only family wholesome, positive and encouraging Christian music station away from the thousands or more people who listen faithfully each day. It supports values and morals which people need to hear during these troubling times. Young children, teenagers and adults can all listen without worrying about what is being said or heard in the lyrics of the songs like other radio stations. We have nothing else like it around and would be heartbreaking and a HUGE LOSS to many if you let it be forced off the air. I pray you listen to us and do not let this happen. Thank You and GOD BLESS AMERICA.
